IOOS
Integrated Ocean
Observing System

Accomplishments

- [Station results in search](#)
- Station landing pages
 - [CLB](#) (COMPS)
 - [SUN2](#) (CORMP)
- Data provider landing pages
 - [COMPS](#)
 - [CORMP](#)
- Improved charting

Accomplishments

- FACT OTN Node
 - [Portal](#)
 - [Data](#)
- [New Website](#)
- [Glider Observatory](#)
- [Gap Analysis Tool](#)
- [Blog \(Hurricane Matthew\)](#)
- [IOOS Certification](#)

Looking ahead

- More collaboration with glider operators on future missions
- Always looking for feedback
- Most requested features:
 - Login and/or ability to save favorite layers
 - Dashboard and alerts when a data feed goes down
