

North Carolina Project Update

Hurricane Matthew

Best Practices and Lessons Learned
June 18, 2018

Resilient Redevelopment Plans

North Carolina's grant match developed 50 county-level plans aimed at decreasing risk and increasing resiliency to future flood events.

- 949 strategies
- 51% infrastructure
- 26% housing
- 12% economic development
- 11% environment

NEXT STEPS

Study and document recovery efforts and identify best practices that will lead to more resilient communities and capabilities.

Review

Opportunities
Structure and Coordination

Lessons Learned

1. What was expected to happen?
2. What actually happened?
3. What went well and why?
4. What can be improved and how?

Coordination and Communication

RECOVERY FRAMEWORK

Review application of each Recovery Support Function (RSF) across programs, processes and its impact at the local level.

- 12 Recovery Support Functions
- Designed to support National RSFs
- In what ways did we add value at the local level?
