

# Southeast Disaster Recovery Partnership

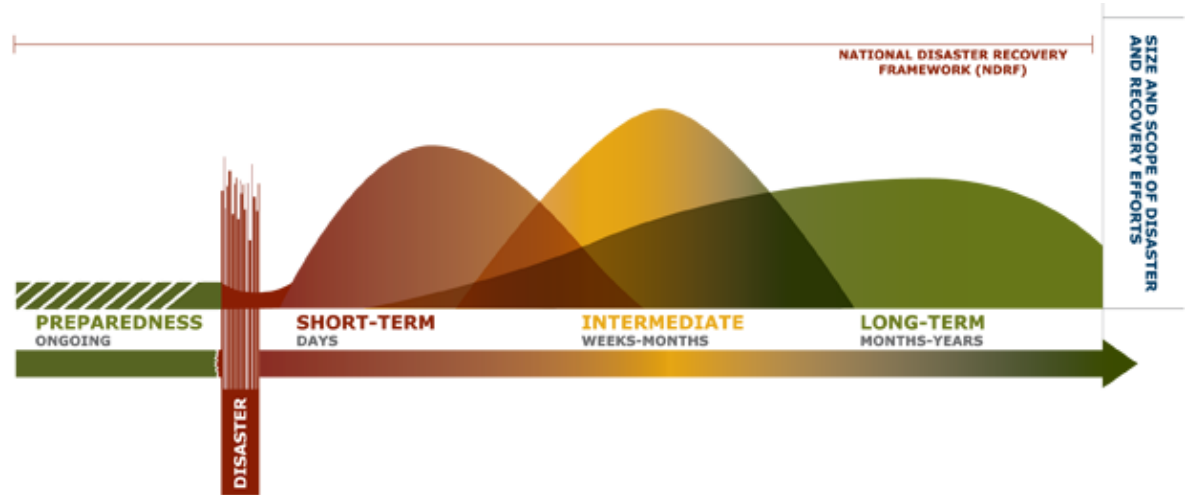

Amanda Martin  
*Coordinator*

# Objective and Approach

## Objective

- Build capacity for disaster recovery in Southeastern states in public and private sectors

## Approach

- Support a project identified as a state/local priority in each Southeastern state
- Enhance capacity and relationships to engage private sector in disaster recovery
- Build a regional network of disaster recovery practitioners

# Accomplishments

- **Brunswick/Glynn County, Ga.** Disaster Recovery and Redevelopment Plan
- 3 business recovery seminars in **Charleston, Myrtle Beach, Georgetown, S.C.**
- **N.C. Emergency Management** kicked off evaluation of Matthew recovery
- **Miami-Dade County** began “Whole Community” recovery stakeholder engagement (business, local gov’t)
- Partnership convened in **Raleigh, N.C.**
- Released white paper on **public-private partnerships**

WELCOME TO SDRP!

## GOALS:

- ① Update on NOAA process; share insights & lessons learned
- ② Present draft economic recovery report; discuss outreach strategy
- ③ Gain insights from **BUSINESS EXPERTS!** on improving recovery process to **BUILD BACK BETTER.**
- ④ Develop shared Year 2 vision and assign tasks.

# Impact

- Ga. coastal community **prepared for recovery, more resilient redevelopment**
- Over 100 S.C. **businesses trained in disaster continuity**
- Separate regional integration project to build **pilot PPPs** off our white paper
- Emergency mgmt., natural resources staff **connected across region** -> share resources
- Anticipated, in future disaster recoveries
  - N.C. state and local govt apply lessons learned in Matthew
  - Miami-Dade local govt and businesses know how to contribute to integrated recovery

*Partners discuss post-disaster buyouts on site*
