Accomplishments

- Focus area: Marine Operations & Coastal Hazards
- Presented at Oceans 18
- Hosted booth with SECOORA at Charleston Boat Show
- Site Updates:
 - Shifted from nowCOAST; now pulling hazards from NWS and TAFB
 - NHC Hurricane Tracks added
 - Add Florida Keys stations

Hurricane Irma's path through the Caribbean, northern Florida Keys, and Miami. Hurricane Threats and Impacts layer available from the NWS Southern Region made available on the MWP.
