

Water Level Network

Nicole Elko, Science Director,
American Shore & Beach
Preservation Association (ASBPA)

June 8, 2022

Water Level Network Overview

Network Goals

- Provide water level data!
- Fill geographic data gaps
- Support historically underserved communities

Installation
and long-term
operation of
~200 new
water level
sensors

A Team Effort

Dr. Nicole Elko & Dr. Brian Glazer

Georgia
Tech®

Dr. Russell Clark

Dr. Tiffany Troxler

Dr. Paul Gayes & Dr. Jason Halstrom

Accomplishments

- **47** water level sensors installed: NC, SC, GA FL
- *“The data allowed us to plan for road closures about a day in advance”*
 - Mayor Steve Smith, Topsail Beach, NC
- Sensor improvements, reduce costs, improve performance
- Integration into project teams’ existing data interfaces/data delivery platforms
- Building partnerships/trust with communities
- Education: K-12, citizen science, nature centers

Two County Nature Centers Collect Real-Time Information With New Tidal Gauges Donated By Beaufort County

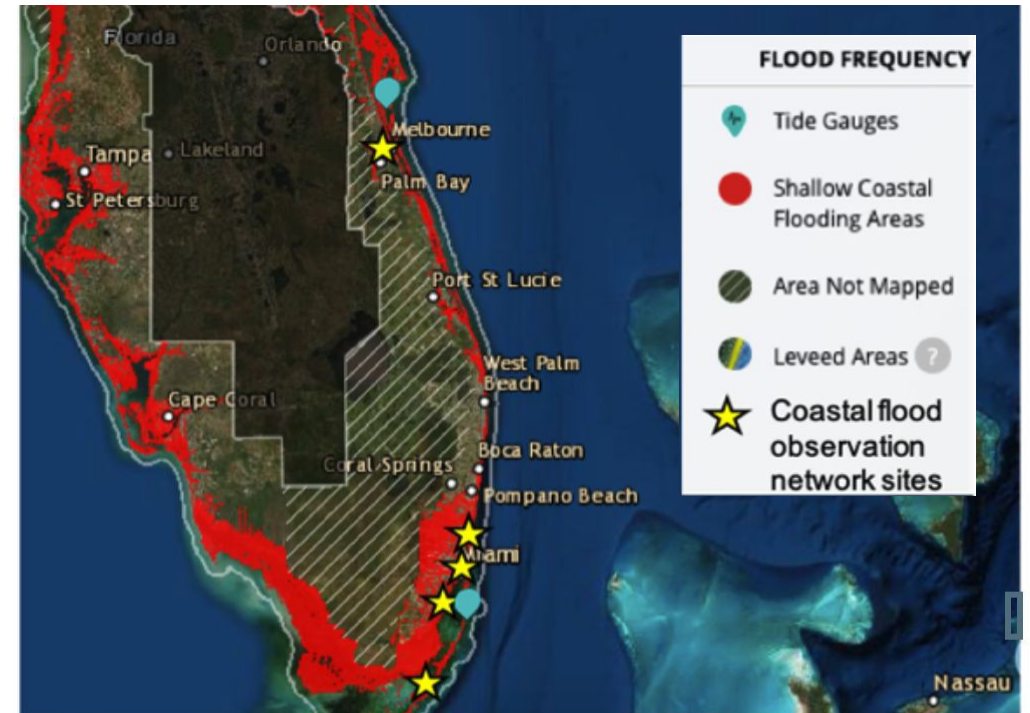

SEA Econet

The sixth annual
Sea Level Solutions Day 2021
Citizen Science Flood Monitoring Project

High tide flooding (in red, DigitalCoast, NOAA) and coastal flood observation sites (yellow stars)

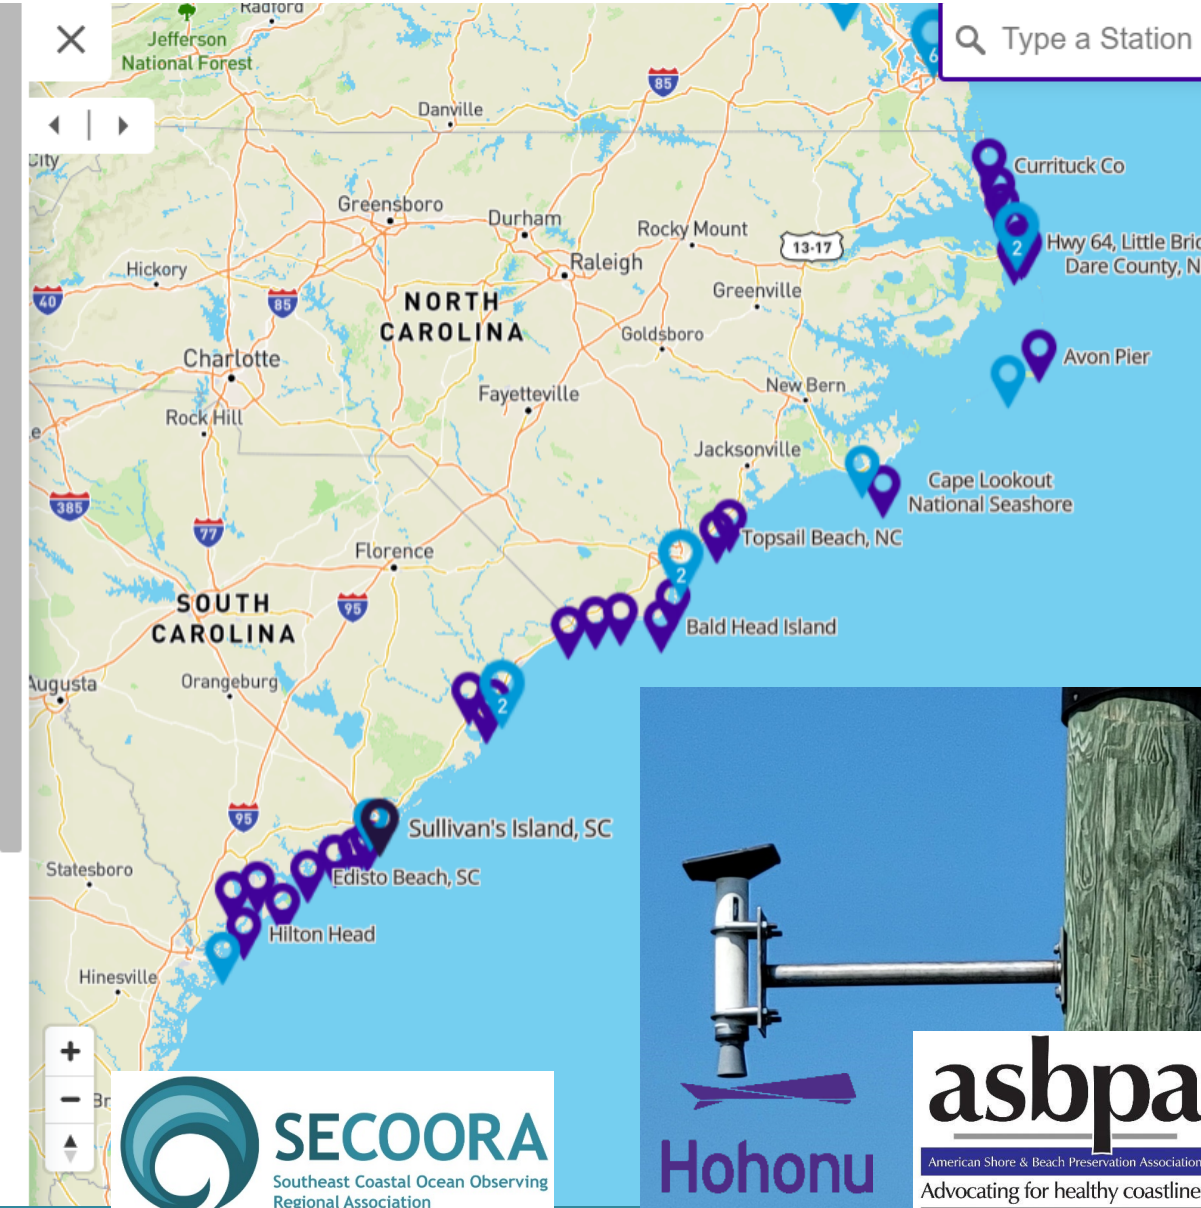

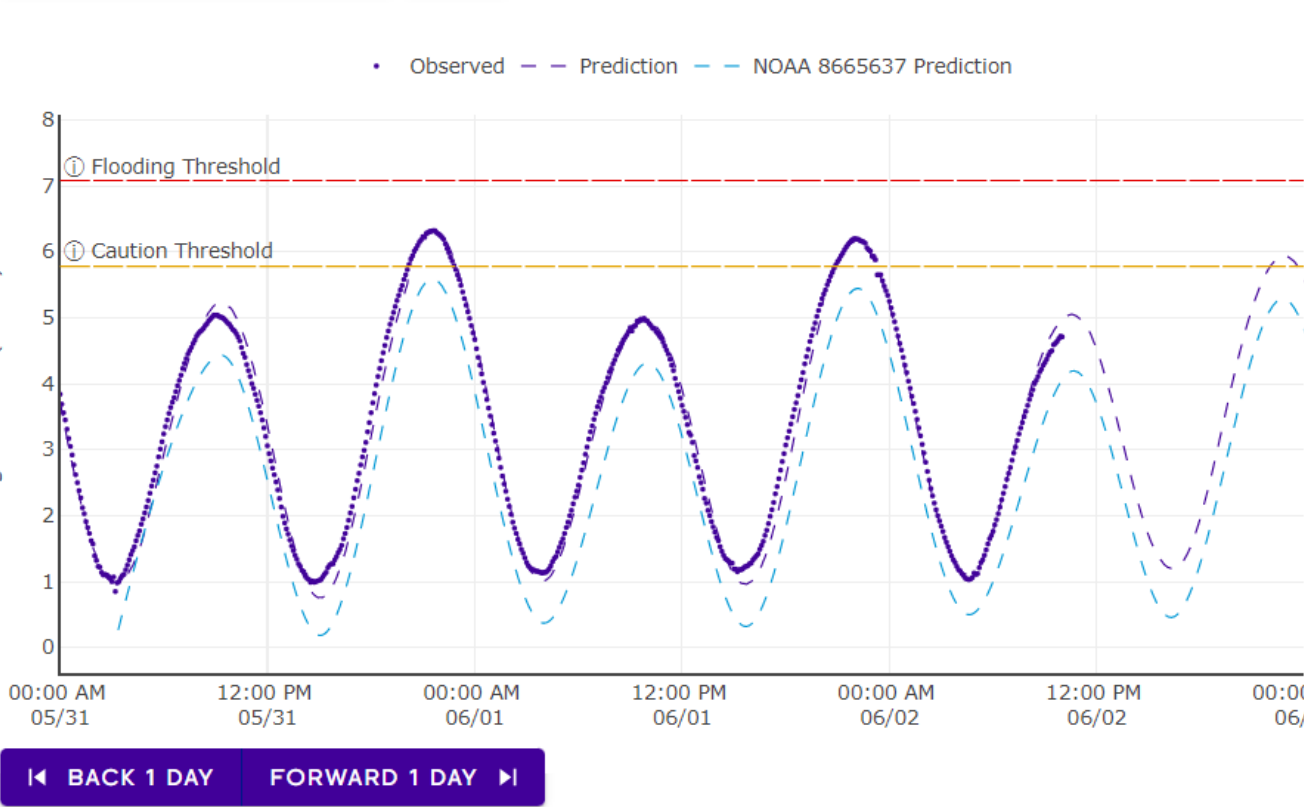

S.E. Coastal Communities Water Level Network

Sullivan's Island, SC

Data Source: Hohonu
Latitude: 32.7654
Longitude: -79.8614

Last Observed: 4.71 feet
Last Updated: Jun 02, 10:02 AM EDT

Water Level Advisory Committee

- **Holly Edmond**, *Environmental Manager at Florida Department of Agriculture and Consumer Services*
- **Victor Engel, Ph.D.**, *Director of the USGS South Atlantic Water Science Center*
- **Laurie Hogan**, *Deputy Chief at Hydrologic Services Division of the National Weather Service*
- **Jennifer Kline**, *Coastal Hazards Specialist for the Georgia Department of Natural Resources Coastal Resources Division*
- **Douglas Marcy**, *Coastal Hazards Specialist at the NOAA Office for Coastal Management*
- **Dwayne Porter, Ph.D.**, *Professor at the Arnold School of Public Health (ASPH) and the Baruch Institute for Marine and Coastal Sciences at the University of South Carolina*
- **Raimundo Rodulfo**, *Director of Information Technology and Chief Innovation Officer at the City of Coral Gables*
- **Sarah Spiegler**, *Coastal Resilience Specialist for North Carolina Sea Grant*
- **David Sumner, Ph.D.**, *Director of the USGS Caribbean-Florida Water Science Center*
- **Gary Thompson**, *Assistant Director at North Carolina Emergency Management's Risk Management*
- **Charles White**, *Director of the Emergency Management Agency for Camden County Georgia*
- **David Wolcott**, *Oceanographer at NOAA Center for Operational Oceanographic Products and Services*

Challenges and Looking Ahead

- Challenges: Scheduling, weather, logistics, supply chain issues, streamlining surveys, cat herding, controlling costs/resource investment
- Year 2: Adoption of common survey protocol to report water level data consistently across 4 teams in the SECOORA portal
 - Install 30+ additional sensors
