

SECOORA Funding Opportunity:

Call for Installation of New SET Stations and/or Reactivation of Historic SET Stations

For the SECOORA Region from North Carolina to Florida

SECOORA invites proposals for funding the installation of new Surface Elevation Table (SET) stations or the reactivation of historic SET stations within our region. This opportunity will cover the cost of materials and supplies, which SECOORA will purchase and ship directly to you.

To submit a proposal (up to 5 pages), please email the SECOORA SET Coordinator, Dr. Nisse Goldberg (ngoldbe@ju.edu), by Friday, September 20, 5pm.

Proposal Requirements:

- 1. Contact Information:**
 - Your name, affiliation, address, email, and phone number
- 2. Funding Request:**
 - Total amount requested
- 3. SET Station Details:**
 - Description of the proposed SET station location(s), including GPS coordinates and justification for the site(s)
- 4. Materials and Supplies:**
 - List of requested materials and supplies with estimated amounts
 - (Optional) Vendor information, item number, and quantity
- 5. Installation Timeline:**
 - Timeframe for when the installation(s) will be conducted and completed
- 6. Acknowledgements:**
 - Agree to work with SECOORA on a plan to share pin-level data from the SET station(s) (SECOORA can mint DOIs upon request)
 - Provide necessary information for NEPA approvals (SECOORA will coordinate this process through the NOAA IOOS Program Office)
 - Commit to communicating with SECOORA's SET coordinator within 1-2 months after repairs are completed, per the timeframe described in the proposal

Review Process:

In October, a review committee, including coastal zone managers and SET experts who have not submitted proposals for this opportunity, will evaluate and prioritize the requests.

Notification and Next Steps:

In November, notifications will be sent out. Those with funded proposals will then be able to submit their material/supply orders.
