

SECOORA

Science Showcase

Thursday, October 10, 2:00 - 3:15 PM

Session overview

- Participants will rotate around tables to talk to presenters about specific applications & requirements for different science applications.
- Opportunity for 1 on 1 time - ask questions & don't be shy!
- Stations:
 1. Shoreline change: Joe Long, UNCW
 2. Rip currents: Alex Pang, UCSC & Greg Dusek, NOAA
 3. Community flooding: Dwayne Porter, USC & Bob Heitsenrether, NOAA
 4. Situational awareness/object detection: Jeremy Cothran, USC
- 5-6 persons per group
- 15 minutes per station
- Announcement to move to next table

Final report out

- Major themes across groups
- New/innovative ideas- things that we haven't thought about before
