SCDRP 11th Annual Meeting

Bridging Science and Society

Turning Data into Action

Join resilience practitioners, emergency managers, researchers, and public officials from across the Southeast & Caribbean as we turn **data and research** on extreme weather, climate, and natural disasters into **real-world resilience strategies**.

Who attends SCDRP Annual Meetings?

This meeting will explore how to:

- Find reliable, trustworthy data sources
- Interpret data in the context of your community
- Communicate data clearly to the public, policymakers, and stakeholders
- Turn data into meaningful action for resilience, mitigation, and disaster preparedness, response, and recovery
